We Did It **AGAIN!** JOINT COMMISSION ACCREDITATION

Bridgeport, CT. 2/10/2007 – By demonstrating compliance with The Joint Commission's national standards for health care quality and safety, Robert D. Russo, MD and Associates Radiology has earned the Joint Commission's Gold Seal of Approval™.

"We seek accreditation for our organization because we want to be the best," says Robert D. Russo MD. "We view obtaining Joint Commission accreditation as another step toward excellence." Ongoing compliance with the Joint Commission standards results in sound management practices in the day-to-day delivery of quality, safe care for our patients in Fairfield County. "Joint Commission Accreditation is mandatory for most health care institutions, but we as an organization, voluntarily selected to participate in the accreditation process, to prove our level of excellence", says Madeline Gregorzek, Project Manager.

We are the first and only, full service, private Imaging Center to be accredited in New England. We are the first practice with all Digital Mammography with CAD (Computer Aided Detection), we provide high field breast MRI with CAD, the only 64 slice CT Scanner in the area and the only fixed site PET CT Scanner. In addition we have an all EMR (Electronic Medical Record). To schedule an appointment please call 203-337-1636.

Our eight offices and our mobile division have been awarded this distinction for the second consecutive time.

"Our staff is very supportive of the process. It gives them a feeling of prestige to work in an accredited organization," says Robert D. Russo, MD. "They also appreciate the educational aspect of the survey and the opportunity to interact with The Joint Commission surveyor."

An independent, not-for-profit organization, The Joint Commission is the predominant standards-setting and accrediting body in health care. Since 1975, The Joint Commission has developed state-of-the-art standards for outpatient ambulatory care organizations. Nearly 1,200 freestanding ambulatory care organizations maintain Joint Commission accreditation.
